GORJE

Občina Gorje ima površino 119,27 km², združuje vasi Zgoranje in Spodnje Gorje, Krnica, Grabče, Poljsica, Pohorje, Vlačnica, Merivod, Zgoranje in Spodnje Laze. Prikazuje naravne znamenitosti v obliki slikovita soteska Vintgar. Občina leži na robu Triglavskih narodnega parka in z gorami, planinami, reko, jarnim svetom in mnogo razglednimi potmi in trasami nudi k pohodništvu, planinarstvu, jamarstvu, kolesarjenju, rokanju, ribolovu ali sproščujočim sprehodom.

The municipality of Gorje and the parish of St. George encompasses 120 square kilometers and are home to nearly 3,000 people who lives in 11 villages. Almost every guest visits famous and picturesque Vintgar gorge. Mountains, alpine pastures, forests, the underground world and an abundance of paths and tracks are an invitation to go hiking, climbing, caving, cycling, fishing or simply take a relaxing walk.

ČEBELARSKA POT 19
Čebelarstvo v Občini Gorje vodi po ohranjenem delu Gorje od Čebelarskega do Čebelarskega Voda na po lepim panoramskih potih, kjer lahko uživamo v prekrasnem razgledu na gorjanke vase. Ob poti bomo spoznali kulturne, naravne in obrtne spomenike Gorje.

JURJEV SEMENJ 20
Vsak zadnji vikend v aprilu Športno društvo Gorje organizira največji tradicionalni športno-kulturni zabavni prirediteljski 'Jurjev semenj', ki v Gorji združuje obiskovalce od blizu in daleč. Vsako leto organizirajo pomenljivi krogi, pomenljivi, 'kozi' in narodnih noči, koncert Goebe Gorje, različne nastave domačih društev ter veselice z zabavnimi ansambli.

POKLJUŠKA SOTESKA 21
Pokljuka skriva v svoji notranjosti mnoge 'dragocenosti'. Med njimi lastno, naravno spomenik - Poključna soteska. Skrajni dva kilometra dolga soteska je ostanek ledenjarskega toka, ki se je po koncu zadnje ledene dobe med umikanjem ledenikov zajel v apnenčasto kamnino. Pozeje se je voda umaknila v globino in nastala je največja suha fosilna soteska v Sloveniji v soteski lahlo, obdajajo naravne mostove, prevrte, stene in votline.

POGLEJSKA CERKEV 22
Poglejska cerkev je jama - skali spečena z mnogimi svetilno na obrobju vasi Poljsica pri Zgornjih Gorjah, v kateri so arheološki najdišča človekove orodje iz starejše kamene dobe, kar dokazuje obstoj 'pračloveka' v Triglavskem pogorju pred poljedelstvom, kulturo. Ob izkopavanju so našli tudi bronaste kovance in bronzni prstan iz krakovskega Odkritja se tu odpirajo razgledi na Gorje, na Gornjopislovar, Blejski kot, Pokljuka, Debelo peč, Rjavino in Triglav.

POKLJUŠKA GORGE
The Pokljuka plateau is a treasure trove of natural wonders, the best-known of which is the Poključka Gorge. The nearly 2-km-long ravine is a remnant of a stream which, at the end of the last ice Age, cut up to 50 metres deep into the limestone slopes above the Radovna. The waters gradually flowed away and the stream withdrew into the underground, leaving behind the largest dry fossil gorge in Slovenia. The Poključka Gorge features a variety of karst formations such as natural bridges, overhanging rock faces, and caves.

THE BEEKEEPER'S PATH
The beekeeper's path in the Municipality of Gorje takes you through the central part of Gorje, from one beehive to the other. It takes along the beautiful scenic routes, from where you can enjoy beautiful views of the villages of the Gorje region. On the way, you will learn about the cultural and natural monuments, as well as the handicrafts of Gorje.

GEORGE'S FAIR
On the last weekend in April each year the 'Gorje Sports Association organizes the biggest traditional sport-cultural show called George's Fair, which brings visitors to Gorje from near and far. Every year they organize a Spring cross-country run, a horse parade with carriages and national costumes, a concert by Gorje Brass Band, different exhibitions by local associations as well as a village festival with music.

THE VIEWING CHURCH
The Viewing Church is a cave - a small hollow under a rocky ledge - on the edge of Poljsica village, near Zgornje Gorje. Here, archaeologists have unearthed man-made tools dating from the Stone Age. These findings prove that prehistoric man lived in the Triglav mountains before the cultivation of land began. While excavating they also found bronze coins and a bronze ring dating from the earlier times of the old Slovene descendants. Visitors to this site experience a beautiful view over Gorje, the Gorenjska plain, Bled, Pokljuka, Debelo Peč, Rjavino and Triglav.
